

CURRICULUM VITAE

Andrew Hollingworth

The University of Iowa
Department of Psychological & Brain Sciences
G60 Psychological and Brain Sciences Building
Iowa City, IA 52242

Phone: (319) 621-3933

E-mail: andrew-hollingworth@uiowa.edu

Web: <http://www2.psychology.uiowa.edu/faculty/hollingworth/>

June 21, 2021

Academic Positions

2011 –	Professor, The University of Iowa, Department of Psychological & Brain Sciences Iowa City, IA
2006 – 2011	Associate Professor, The University of Iowa, Department of Psychology Iowa City, IA
2002 – 2006	Assistant Professor, The University of Iowa, Department of Psychology Iowa City, IA
2000 – 2002	Assistant Professor, Yale University, Department of Psychology New Haven, CT

Education

2000	Ph.D., Michigan State University Specialization: Cognitive Science
1992	Ed.M., Harvard University Graduate School of Education Specialization: Teaching and Curriculum
1988	B.A. with Special Honors, The University of Chicago Major: English Language and Literature

Research Interests

Goal-directed Vision: visual memory, attention, eye movements, scene perception

Awards and Honors

2007 Elected Fellow, American Psychological Association (Division 3)

2003 New Investigator Award, American Psychological Association Division of Experimental Psychology, for “Accurate visual memory for previously attended objects in natural scenes.” *Journal of Experimental Psychology: Human Perception and Performance*, 28, 113-136.

1996 National Science Foundation Graduate Research Fellowship

1996 Department of Defense National Defense Science and Engineering Graduate Fellowship (declined in favor of NSF fellowship)

Professional Activities and Affiliations

Current Editorial Positions

Associate Editor, *Journal of Experimental Psychology: Learning, Memory, and Cognition*, 2018 – present

Editorial Board, *Journal of Experimental Psychology: General*, 2007 – present

Previous Editorial Positions

Associate Editor, *Cognition*, 2006 – 2015

Editorial Board, *Journal of Experimental Psychology: Human Perception and Performance*, 2004 – 2014

Editorial Board, *Attention, Perception, & Psychophysics*, 2006 – 2014

Editorial Board, *Psychological Science*, 2007 – 2011

Editorial Board, *Visual Cognition*, 2005 – 2008

Ad Hoc Reviewing: Journals

Acta Psychologica; *American Journal of Psychology*; *Behavioral and Brain Sciences*; *British Journal of Psychology*; *Canadian Journal of Experimental Psychology*; *Cognition*; *Cognitive Psychology*; *Cognitive Science*; *Current Directions in Psychological Science*; *European Journal of Cognitive Psychology*; *Experimental Psychology*; *Experimental Brain Research*; *Journal of Cognitive Neuroscience*; *Journal of Experimental Psychology: General*; *Journal of Experimental Psychology: Human Perception and Performance*; *Journal of Experimental Psychology: Learning, Memory, and Cognition*; *Journal of Vision*; *Memory & Cognition*; *Nature: Human Behavior*; *Perception*; *Perception & Psychophysics*; *Philosophical Psychology*; *PLOS One*; *Proceedings of the National Academy of Sciences*; *Psychological Bulletin*; *Psychological Science*; *Psychology & Aging*; *Psychonomic Bulletin & Review*; *Quarterly Journal of Experimental Psychology*; *Vision Research*; *Visual Cognition*

Grant Reviewing

National Institutes of Health:

Cognition and Perception Study Section, permanent member, 2012 – 2016

Cognition and Perception Study Section, temporary member, 2007

National Science Foundation: Ad hoc reviewer

Other Reviewing

Oxford University Press

Sinauer Associates

Membership in Professional Organizations

American Psychological Society

Psychonomic Society (Member)

Vision Sciences Society

Miscellaneous

Organizer: *The 10th Annual Workshop on Object Perception and Memory*, 2002.

Co-chair: *Psychonomic Society Symposium on Visual Short-Term Memory*, 2004.

Publications

Refereed Journal Articles

Ffrench-constant, C., Hollingworth, A., Heasman, J., & Wylie, C. C. (1991). Response to fibronectin of mouse primordial germ-cells before, during and after migration. *Development*, 113, 1365-1373.

Invited Presentations and Colloquia

Coactive Guidance of Attention from Multiple Items in Visual Working Memory. Royal Netherlands Academy of Arts and Sciences Colloquium: New Perspectives on Visual Working Memory. Amsterdam, June 2019.

The Guidance of Visual Attention and Gaze by Visual Working Memory. University of Illinois, April 2018.

The Guidance of Visual Attention and Gaze by Visual Working Memory. Seventh Bernstein Sparks Workshop on Active Perceptual Memory. Humboldt University, Berlin, Germany, October 2015.

The Guidance of Eye Movements by Visual Working Memory. Department of Psychology, Iowa State University, April 2014.

Implementing Positive and Exclusionary Templates during Visual Search. ZIF Research Group: Competitive Visual Processing across Space and Time: Interactions with Memory. Bielefeld, Germany, March 2014.

The Guidance of Eye Movements by Visual Working Memory. Center for Neuroengineering and Cognitive Science and the Department of Electrical & Computer Engineering, University of Houston, February 2014.

The Guidance of Eye Movements by Visual Working Memory. Institute of Neuroscience, University of Oregon, October 2013.

The Guidance of Visual Search by Knowledge and Memory. Department of Psychology, University of Copenhagen, Copenhagen, Denmark, August 2013.

The Guidance of Visual Search by Knowledge and Memory. ZIF Research Group, University of Bielefeld, Bielefeld, Germany, June 2013.

Testing the Influence of Attentional Distraction on the Precision of Spatial Working Memory. Minisymposium on Working Memory and Attention. Vrije Universiteit Amsterdam, The Netherlands, May 2013.

The Relation between Visual Attention and Visual Working Memory. University of Rochester, Center for Visual Science, Boynton Colloquium Series, April, 2013.

The Role of Visual Attention in VWM and SPWM Maintenance. University of California, Davis, Center for Mind and Brain, February, 2013.

Choosing to remember: Selection in VWM does not depend on sustained attention. ZIF Research Group: Linking Selection for Visual Perception, Memory, and Action. Bielefeld, Germany, October 2012.

Interactions between visuo-spatial memory and saccade target selection during scene perception and search. Symposium in Honor of Alan Kennedy: Spatial Coding and Eye-movement Control. 16th European Conference on Eye Movements, Marseille, France, August 2011.

Encoding the saccade target object into visual working memory. Symposium: Binding in Working Memory, 5th International Conference on Memory, York University, UK, August 2011.

Interactions between visual working memory and saccade target selection during search. 59th Nebraska Symposium on Motivation: The Influence of Attention, Learning, and Motivation on Visual Search, University of Nebraska, Lincoln, Department of Psychology, to be presented April 2011.

(1) *The visual representation of natural scenes* (2) *The role of visual working memory in establishing object correspondence across saccades* (3) *The functional role of visual working memory in scene viewing.* Series of three Keynote Speaker addresses. 14th Workshop on Attention and Perception, National Chung Cheng University. Chiayi, Taiwan, June 2009.

The role of visual working memory in establishing object correspondence across saccades and brief occlusion. Vanderbilt University, Department of Psychology, October 2008.

The role of visual short-term memory in eye movement control. New Fellow Symposium, American Psychological Association 116th Annual Convention, Boston, August 2008.

Visual memory for natural scenes. Distinguished Speaker. Seventh Tsukuba International Conference on Memory: Visual Memory. Tsukuba, Japan, March 2008.

The visual representation of natural scenes. Keynote Speaker. The Horizons of Vision Research Conference. Center for Cognitive Science, California State University Long Beach, March 2008.

The visual representation of natural scenes. Massachusetts Institute of Technology, Department of Psychology, October 2007.

The role of eye movements in scene perception and memory. Keynote Speaker. Cognitive Science Workshop: What have eye movements told us so far, and what is next? Annual Meeting of the Cognitive Science Society, Vancouver, BC. July 2006.

The role of visual short-term memory in the representation of natural scenes. Symposium on Visual Short-Term Memory for Features and Objects, Annual Meeting of the Psychonomic Society, Minneapolis, MN. November 2004.

The structure of scene representations. Symposium on the Visual Cognition of Natural Scenes, Annual Meeting of the Psychonomic Society, Vancouver, BC. November 2003.

Visual memory and the online representation of complex scenes. Munich Visual Search Symposium, Munich, Germany. June 2003.

Short- and long-term memory contributions to the online visual representation of natural scenes. The University of Illinois, Department of Psychology. March 2003.

Scene perception: Eye movements, attention, and visual memory. The University of Iowa, Department of Psychology. February 2002.

Scene perception: Eye movements, attention, and visual memory. Yale University, Center for Computational Vision and Control Lunch Series. January 2002.

The representation of natural scenes: Eye movements, attention, and visual memory. University of

- Massachusetts Amherst, Five College Seminar in Cognitive Science. March 2001.
- The representation of natural scenes: Eye movements, attention, and visual memory.* Yale University, Club Neurobiology Seminar. February 2001.
- Change blindness and long-term scene memory.* Yale University, Department of Psychology. January 2000.
- Objects in real-world scenes: issues of identification and short-term memory.* Harvard University, Vision Sciences Laboratory. May 1999.

Conference Presentations

- Tas, A. C., & Hollingworth, A. (2019). Transsaccadic perception depends on object-based updating. Paper presented at the European Conference on Eye Movements, Alicante, Spain.
- Bahle, B., & Hollingworth, A. (2019). Visual search for categorically defined targets is biased toward recently viewed exemplars. Paper presented at the Annual Meeting of the Vision Sciences Society, St. Pete Beach, FL.
- Hollingworth, A., Bahle, B., Thayer, D. J., & Mordkoff, J. T. (2019) The architecture of interaction between visual working memory and attention: Features from multiple remembered objects produce parallel, coactive guidance. Paper presented at the Annual Meeting of the Vision Sciences Society, St. Pete Beach, FL.
- Bahle, B., & Hollingworth, A. (2018). Visual search for categorically defined targets is biased toward recently viewed exemplars. Poster presented at the Annual Meeting of the Psychonomic Society, New Orleans, LA.
- Thayer, D. J., Bahle, B., Mordkoff, J. T., & Hollingworth, A. (2018). The guidance of attention by redundant target features in visual working memory. Poster presented at the Annual Meeting of the Psychonomic Society, New Orleans, LA.
- Narhi, W., Bahle, B., & Hollingworth, A. (2018). Contextually cued visual sequences of attention. Poster presented at the 26th Annual Workshop on Object Perception, Attention, and Memory, New Orleans, LA.
- Bahle, B., & Hollingworth, A. (2017). Contrasting episodic-based and template-based guidance during real-world visual search. Poster presented at the 25th Annual Workshop on Object Perception, Attention, and Memory, Vancouver, BC.
- Beck, V. M., Bahle, B., & Hollingworth, A., (2016). The guidance of attention by multiple items in visual working memory. Paper presented at the Annual Meeting of the Psychonomic Society, Boston, MA.
- Bahle, B., Hollingworth, A., & Beck, V. M. (2016). The architecture of interaction between visual working memory and visual attention. Poster presented at the 24th Annual Workshop on Object Perception, Attention, and Memory, Boston, MA.
- Beck, V. M., Leonard, C. J., Robinson, B. M., Hahn, B., Hollingworth, A., Gold, J. M., & Luck, S. J. (2016). People with schizophrenia demonstrate more optimal feature-guided visual search in a probabilistic search task. Poster presented at the Annual Meeting of the Vision Sciences Society, St. Pete Beach, FL.
- Bahle, B., & Hollingworth, A. (2016). Contrasting gist-based and feature-based guidance during real-world search. Poster presented at the Annual Meeting of the Vision Sciences Society, St. Pete Beach, FL.
- Tas, A. C., & Hollingworth, A. (2015). The representation of the saccade target object depends on visual stability. Poster presented at the Seventh Bernstein Sparks Workshop on Active Perceptual Memory, Berlin, Germany.
- Beck, V. M., & Hollingworth, A. (2015). Attentional guidance by simultaneously active working memory

- representations: Evidence from competition in saccade target selection. Paper presented at the European Conference on Visual Perception, Liverpool, UK.
- Tas, A. C., & Hollingworth, A. (2015). The role of visual stability in representations of pre- and post-saccadic objects. Paper presented at the European Conference on Visual Perception, Liverpool, UK.
- Beck, V. M., & Hollingworth, A. (2015). Attentional guidance by simultaneously active working memory representations: Evidence from competition in saccade target selection. Paper presented at the European Conference on Eye Movements, Vienna, Austria.
- Hollingworth, A., & Beck, V. M. (2015). Guidance of attention by multiple feature values in visual working memory. Poster presented at the Annual Meeting of the Vision Sciences Society, St. Pete Beach, FL.
- Tas, A. C., Moore, C. M., & Hollingworth, A. (2014). The representation of the saccade target object depends on visual stability. Paper presented at the 22nd Annual Workshop on Object Perception, Attention, and Memory, Long Beach, CA.
- Beck, V. M., & Hollingworth, A. (2014). Template representations are buffered from perceptual and memorial interference during search. Poster presented at the 22nd Annual Workshop on Object Perception, Attention, and Memory, Long Beach, CA.
- Treat, T. A., & Hollingworth, A. (2014). Links between visual attention, craving, and consumption of unhealthy vs healthy food. Poster presented at the 2014 APS Annual Convention, San Francisco.
- Beck, V. M., & Hollingworth, A. (2014). Can attention be guided efficiently by a negative template? Poster presented at the Annual Meeting of the Vision Sciences Society, St. Pete Beach, FL.
- Tas, A. C., & Hollingworth, A. (2014). The role of visual stability in the representation of the saccade target object. Poster presented at the Annual Meeting of the Vision Sciences Society, St. Pete Beach, FL.
- Hwang, S., & Hollingworth, A. (2013). The influence of saccade execution on spatial working memory precision. Paper presented at the Annual Meeting of the Psychonomic Society, Toronto, Canada.
- Tas, A. C., & Hollingworth, A. (2013). Automatic encoding of the saccade target into visual working memory. Paper presented at the 17th European Conference on Eye Movements, Lund, Sweden.
- Hwang, S., & Hollingworth, A. (2013). The influence of saccade execution on spatial working memory precision. Poster presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.
- Hein, E., Hollingworth, A., & Moore, C. M. (2013). The influence of visual working memory on correspondence in the Ternus display. Poster presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.
- Hein, E., Hollingworth, A., & Moore, C. M. (2013). The influence of visual short-term memory content on object correspondence. Poster presented at the 55th TEAP meeting, Vienna, Austria.
- Hollingworth, A., & Maxcey-Richard, A. M. (2012). Selection in visual working memory does not require sustained visual attention. Paper presented at the Annual Meeting of the Psychonomic Society, Minneapolis, MN.
- Beck, V. M., Hollingworth, A., & Luck, S. J. (2012). Simultaneous control of attention by multiple working memory representations. Paper presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.
- Hwang, S., & Hollingworth, A. (2012). The reliance on ensemble statistics in VWM varies according to the quality of item memory. Poster presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.
- Tas, A. C., Luck, S. J., & Hollingworth, A. (2012). Saccade execution, not covert attention, leads to automatic encoding of distractors into VWM. Poster presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.

- Hollingworth, A., and Matsukura, M. (2011). Visual working memory content biases the allocation of gaze during search through natural scenes. Paper presented at the Annual Meeting of the Psychonomic Society, Seattle, WA.
- Tas, A. C., Luck, S. J., & Hollingworth, A. (2011). The automatic encoding of distractors into VWM through overt, but not covert attention. Paper presented at the 19th Annual Workshop on Object Perception, Attention, and Memory, Seattle, WA.
- Beck, V. M., Hollingworth, A., & Luck, S. J. (2011). Visual search is guided by multiple active templates in visual working memory. Poster presented at the 19th Annual Workshop on Object Perception, Attention, and Memory, Seattle, WA.
- Gearhardt, A. N., Treat, T. A., & Hollingworth, A. (2011). The relation between eating-related individual differences and attentional biases for high fat and high sugar foods. Poster presented at the 2011 APS Annual Convention, Washington, DC.
- Tas, A. C., Moore, C. M., & Hollingworth, A. (2011). The role of surface feature information in object persistence across saccades. Poster presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.
- Beck, V. M., Luck, S. J., & Hollingworth, A. (2011). The implementation of an exclusionary attentional template: Direct versus indirect cueing. Poster presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.
- Matsukura, M., & Hollingworth, A. (2011). How does object structure influence saccade targeting within an object? Poster presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.
- Dodd, M. D., Mills, M., Van der Stigchel, S., & Hollingworth, A. (2011). Examining the influence of scene manipulations and task instruction on scanpaths and inhibition of return. Poster presented at the Annual Meeting of the Vision Sciences Society, Naples, FL.
- Schneegans, S., Spencer, J. P., Hollingworth, A., & Schöner, G. (2011). Dynamic interactions between visual working memory and saccade planning. Paper presented at the Bernstein Conference 2011: Computational Neuroscience / Neurotechnology and Neurex Annual Meeting, Freiburg, Germany.
- Beck, V. M., Luck, S. J., & Hollingworth, A. (2010). Whatever you do, don't look at the... Exploring the parameters of an exclusionary attentional template. Paper presented at the 18th Annual Workshop on Object Perception, Attention, and Memory, St Louis, MO.
