

Program Disclosures

As articulated in Standard I.B.2, programs may have “admission and employment policies that directly relate to affiliation or purpose” that may be faith-based or secular in nature. However, such policies and practices must be disclosed to the public. Therefore, programs are asked to respond to the following question.

Does the program or institution require students, trainees, and/or staff (faculty) to comply with specific policies or practices related to the institution’s affiliation or purpose? Such policies or practices may include, but are not limited to, admissions, hiring, retention policies, and/or requirements for completion that express mission and values. If yes, provide website link (or content from brochure) where this specific information is presented:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students will occasionally receive credit for prior graduate work. Generally, we require students to complete their core clinical courses (Psychopathology, Assessment, and Psychotherapies) in our program. Our experience is that students who have prior graduate work do not complete our program much more quickly than students who have no prior graduate work.
