GRANTS

- Ruth L. Kirschstein National Research Service Award (NRSA) 2014–2015
 Funding Agency: NIH/NIMH
 Role: Principal Investigator
 Grant Title: Neurophysiological Mechanisms in the Development of Externalizing Problems (1 F31 MH100814-01A1)
- Clinical and Translational Sciences Award 2012–2013
 Funding Agency: NIH/NCATS
 Role: Pre-doctoral trainee (PI: Anantha Shekhar, M.D., Ph.D.)
 Grant Title: Indiana Clinical and Translational Sciences Institute TL1 Program (TL1 TR000162)
- National Research Service Award—Institutional Training Grant 2011–2012
 Funding Agency: NIH/NICHHD
 Role: Pre-doctoral trainee (PI: Linda Smith, Ph.D.)
 Grant Title: Training Program in Integrative Developmental Process (T32 HD007475-17)

Language ability predicts the development of attention problems in children. Project presented at Indiana University Dept. of Psychological and Brain Sciences Developmental Seminar.

Petersen, I.T., Bates, J.E., Goodnight, J.A., Dodge, K.A., Lansford, J.E., Pettit, G.S., Latendresse, S.J., & Dick, D.M. (2011). Serotonin transporter gene polymorphism moderates the effect of stressful life events on trajectories of anxious/depressed symptoms. Project presented at Indiana University Dept. of Psychological and Brain Sciences Developmental Seminar.

Petersen, I.T., Bates, J.E., Staples, A.D., Chien, R., & Hanrahan, M. (2010). Language ability predicts inhibitory and effortful control among toddlers. Project presented at Indiana University Dept. of Psychological and Brain Sciences Developmental Seminar.

CLINICAL
EXPERIENCE

SUPERVISORY ROLE

Parent Behavior Training (Fall 2012–Spring 2015)

Duties: Supervised junior-level graduate students individually and in group settings following an empirically-supported parent behavior training protocol to treat children’s disruptive behavior disorders.

Site: Indiana University—Dept. of Psychological and Brain Sciences—Bloomington, IN

Supervisor: John Bates, Ph.D.

Evidence-Based Clinical Supervision Course (Spring 2014)

Duties: Read and discussed evidence-based information on the research, theory, and practice of supervision. Course content included practical skills for the implementation of evidence-based supervision as well as diversity and ethical issues relevant to supervision.

Site: Indiana University—Dept. of Psychological and Brain Sciences—Bloomington, IN

Supervisor: Cara Lewis, Ph.D.

Alternative Alcohol Intervention Program (Fall 2012–Summer 2013)

Duties: Trained and supervised junior-level students in their delivery of brief interventions and psychoeducation in an alcohol diversion program. Provided recommendations when students were competent to advance to individual therapists.

Site: Indiana University—Office of Student Affairs—Bloomington, IN

Supervisor: Walter Keller, Ph.D.

Evidence-Based Psychosocial Intervention Consultation (Fall 2011–Spring 2013)

Duties: Consultation with other doctoral students regarding evidence-based approaches to assessment and treatment. Met biweekly in group setting.

Site: Indiana University—Dept. of Psychological and Brain Sciences—Bloomington, IN

Supervisor: Cara Lewis, Ph.D.

CLINICIAN ROLE

Dual Diagnosis Inpatient Services (Summer 2016)

Duties: Conducted psychological evaluations and completed intensive therapy using a Motivational Interviewing (MI) approach for individuals with substance abuse problems and other serious mental health difficulties.

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisor: Antoine Douaihy, M.D.

Psychotherapy Training Clinic (Fall 2015–Summer 2016)

Duties: Conducted longitudinal, one-on-one therapy using various treatment modalities, including Cognitive Behavioral Therapy (CBT), Exposure Therapy, and Interpersonal Psychotherapy (IPT).

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisor: Jay Fournier, Ph.D.

Diagnostic Evaluation Center (Spring 2016)

Duties: Evaluated patients presenting to the WPIC psychiatric emergency room, determined preliminary diagnoses and disposition with attending psychiatrists, and arranged for necessary treatment arrangements.

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisor: Christopher Parada, M.A.

Science and Practice for Effective Children's Services (Winter 2016–Spring 2016)

Duties: Provided an evidence-based treatment for caregivers and their children dealing with child physical abuse (Alternatives for Families: A Cognitive Behavioral Therapy; AF-CBT). Provided behavioral health consultations and assisted in implementing a behavioral and mental service in a local, primary care practice in McKeesport, PA.

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisor: David Kolko, Ph.D.

Obsessive-Compulsive Disorder Intensive Outpatient Program for Children and Adolescents (Spring 2016)

Duties: Co-facilitated an Exposure and Response Prevention (ERP) group for children with OCD.

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisors: Shoshanna Shear, M.D., Amy Kelly, M.D.

Matilda H. Theiss Child Development Center (Fall 2015–Winter 2016)

Duties: Helped teachers in a therapeutic preschool manage classroom misbehavior, conducted functional behavioral assessments (FBAs) to make recommen-

datations to teachers, and worked with families in Parent Management Training (PMT).

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisor: Kimberly Blair, Ph.D.

Family Therapy Training Center (Fall 2015–Winter 2016)

Duties: Provided structural family therapy treatment to families experiencing a wide range of psychiatric disorders, phase-of-life problems, and problems in coping with acute or chronic stressors.

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisor: Leonard Woods, LCSW

Behavioral Sleep Medicine (Winter 2016)

Duties: Conducted assessments of patients with insomnia and other circadian rhythm disorders, and implemented Brief Behavioral Treatment for Insomnia (BBTI), a modified version of CBT-I.

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisors: Brant Hasler, Ph.D., Daniel Buysse, M.D.

ADHD Across the Lifespan Clinic (Fall 2015)

Duties: Worked with children with ADHD and their families in intervention, and co-led skills groups for adults and college students with ADHD.

Site: University of Pittsburgh School of Medicine—Western Psychiatric Institute and Clinic—Pittsburgh, PA

Supervisor: Aaron Jennings, LCSW

Parent Behavior Training (Fall 2010–Spring 2015)

Duties: Trained parents to manage their children's oppositional and defiant behavior with principles from social learning perspective using Fleischman's family-based parent behavior training protocol. Conducted school and home observations as needed. Maintained a weekly caseload of 1–2 families. Videotaped each session for weekly individual, group, and online supervision. Collaborated with community mental health service providers, physicians, and school teachers.

Site: Indiana University—Dept. of Psychological and Brain Sciences—Bloomington, IN

Supervisor: John Bates, Ph.D.

Child Mood Disorders Clinic (Spring 2013–Fall 2013)

Duties: Provided cognitive behavioral therapy treatment to children with depression, anxiety, and other mood disorders, in addition to comorbid externalizing problems. Maintained a weekly caseload of 3–5 patients. Received weekly supervision.

Site: Riley Hospital for Children (Dept. of Child and Adolescent Psychiatry)—Indianapolis, IN

Supervisor: Ann Lagges, Ph.D.

Child Neuropsychology Assessment (Summer 2012–Fall 2012)

Duties: Conducted child and adolescent neuropsychology assessments for ADHD and learning disorders to help make treatment recommendations. Trained in testing, administration/scoring, behavioral observations, and preliminary case formulations. Received weekly supervision.

Site: Riley Hospital for Children (Dept. of Child and Adolescent Psychiatry)—Indianapolis, IN

Qualified Psychometric Technician: WISC-IV, K-BIT-2, WJ-III-Ach, SCWT, CIT, CCPT, CVLT-C, WRAML-2, VMI, TAT, SC, WASI-II (abbreviations defined in “Assessments” section)

Supervisor: William Kronenberger, Ph.D.

Alternative Alcohol Intervention Program (Fall 2011–Summer 2013)

Duties: Conducted brief motivational interviewing and behavioral intervention strategies for students struggling with alcohol and drug misuse and associated negative academic and legal ramifications. Maintained a weekly caseload of 7–10 individual clients. Received weekly supervision.

Site: Indiana University—Office of Student Affairs—Bloomington, IN

Supervisor: Walter Keller, Ph.D.

Child-Informed Divorce Mediation (Fall 2009–Spring 2010)

Duties: Served as a child consultant to bring the children’s perspective into divorce mediation and help parents consider their children’s needs. Conducted child and family assessments, and delivered feedback to parents in divorce mediation. Received weekly supervision.

Site: Indiana University—Dept. of Psychological and Brain Sciences—Bloomington, IN

Supervisor: Amy Holtzworth-Munroe, Ph.D. and Brian D’Onofrio, Ph.D.

RESEARCH
EXPERIENCE

Principal Investigator, Developmental Psychopathology Lab (Spring 2017–present)
University of Iowa—Dept. of Psychological and Brain Sciences

Doctoral Student, Social Development Laboratory (Fall 2009–Fall 2016)
Indiana University—Dept. of Psychological and Brain Sciences

Advisor: John Bates, Ph.D.

Dissertation: “Neurophysiological mechanisms in the development of externalizing behavior problems in young children”

Experience: Used longitudinal designs to examine the mechanisms involved in the development of self-regulation, conduct problems, and maladjustment. Developed system for sharing and merging data across sites as part of multi-site NIH grant. Conducted EEG assessments with 2–3-year-old children for dissertation.

Psychology Honors Project and Thesis (Spring 2008–Fall 2008)

University of Texas—Dept. of Psychology

Advisor: Charles Holahan, Ph.D. and Catharine Echols, Ph.D.

Thesis: “The role of maturational constraints in the syntactic processing of language by children and adults: a study of the less-is-more hypothesis with American Sign Language”

Experience: Designed and conducted honors project examining how children acquire second languages better than adults.

French Honors Project and Thesis (Spring 2008–Fall 2008)

Indiana University—Dept. of French & Italian

Advisor: Carl Blyth, Ph.D.

Thesis: “Des facteurs linguistiques et sociolinguistiques de l’acceptabilité des emprunts français en anglais” (Linguistic and sociolinguistic factors of acceptability of French borrowings in English)

Experience: Designed and conducted honors project examining the characteristics of French words that lead to their usage in English.

Research Assistant, Children’s Research Laboratory (Spring 2006–Spring 2007)
University of Texas—Dept. of Psychology

Advisor: Catharine Echols, Ph.D.

Experience: Conducted longitudinal, cross-cultural study on language acquisition in infants (9, 13, 18 mos.). Studied the effects of priming on elicited sentence structure in 4 year olds.

TEACHING
EXPERIENCE

Course Instructor

- Introduction to Clinical Psychology (Spring 2017)
- Methods of Experimental Psychology (Fall 2011)

Guest Lecturer

- “Psychological Disorders of Childhood”, *Abnormal Psychology* (Fall 2009)
- “ADHD”, *Clinical Neuroscience* (Fall 2011, Spring 2011, Fall 2014)
- “Genes and Behavior”, *Clinical Neuroscience* (Spring 2011)

Assistant Instructor

- Behavioral Disorders of Childhood and Adolescence (Fall 2009)
- Abnormal Psychology (Fall 2009, Spring 2010, Fall 2010)
- Clinical Neuroscience (Spring 2010)

Other

- Preschool Teacher (Spring 2009–Summer 2009)
- English Teacher at Professional French Business School (Fall 2007)
- After-School Elementary Teacher (Fall 2006–Spring 2007)

WORKSHOPS

Statistics Training

- Structural Equation Modeling: Advanced Longitudinal Modeling (2010, University of Kansas), Todd Little, Ph.D.
- Factorial Invariance in Multiple Group and Longitudinal Models (2011, University of Michigan), Todd Little, Ph.D.
- The Bayesian Perspective in the Context of Large Scale Assessments (2011, Indiana University), David Kaplan, Ph.D.

- Interpreting Interaction Effects and New Perspectives on Interaction Analysis (2011, Indiana University), James Jaccard, Ph.D.

EEG/ERP Training

- ERP Data Collection, Processing, and Analysis with Children (2011, University of Nebraska), Dennis Molfese, Ph.D.
- EEG Workshop on Artifact Detection, Rejection, and Removal (2012, Indiana University), William Hetrick, Ph.D. and Paul Kieffaber, Ph.D.

Clinical Training

- Fostering a Safe Base for Trainees to Learn, Develop and Acquire Competence (2016, Western Psychiatric Institute and Clinic), Paula Ravitz, M.D.
- Unified Protocol for Transdiagnostic Treatment of Emotional Disorders (2016, Western Psychiatric Institute and Clinic), Shannon Sauer-Savala, Ph.D.
- Structured Clinical Interview for DSM-IV-TR Axis I Disorders (2012, Indiana University), Cara Lewis, Ph.D.
- Child Inclusive Dispute Resolution (2009, Indiana University), Jennifer McIntosh, Ph.D.

Formal Ethics Training

- Responsible Conduct of Research Series: Collaborative Science (2013), Office of Research Ethics, Education & Policy, Indiana University
- Responsible Conduct of Research Series: Mentorship (2013), Office of Research Ethics, Education & Policy, Indiana University
- Responsible Conduct of Research Series: Authorship and Publications (2013), Office of Research Ethics, Education & Policy, Indiana University

PROFESSIONAL EXPERIENCE

Village Church Child and Family Development Center, Prairie Village, KS

Preschool Teacher 2009

- Taught 4-5 year olds at a preschool, prepared lessons

IMS Business School, Nantes, France

English Teacher 2007

- Prepared lessons, taught English classes to native French students in a professional business school

Community New Start, Austin, TX

After-School Teacher 2006–2007

- Provided under-privileged elementary school children with an after-school program for tutoring, mentoring, recreational activities, and spiritual awareness

PROFESSIONAL ACTIVITIES

Clinical Science Student Representative, Indiana University 2014–2015
 Advisory Board, Workshop in Methods, Indiana University 2012–2015

VOLUNTEERING

Basketball Coach for 3rd Graders 2014

AFFILIATIONS

DeLTA Center 2017

|-------------|--|
| ASSESSMENTS | Beery-Buktenica Developmental Test of Visual-Motor Integration (VMI) |
| | California Verbal Learning Test–Children’s Version (CVLT-C) |
| | Conners’ Continuous Performance Test II (CCPT) |
| | Counting Stroop Interference Test (CIT) |
| | Differential Ability Scales-II (DAS-II) |
| | Kaufman Brief Intelligence Test-2 (K-BIT-2) |
| | Peabody Picture Vocabulary Test-4 (PPVT-4) |
| | Stroop Color and Word Test (SCWT) |
| | Tendler Sentence Completion Test (SC) |
| | Thematic Apperception Test (TAT) |
| | Wechsler Abbreviated Scale of Intelligence-II (WASI-II) |
| | Wechsler Intelligence Scale for Children-IV (WISC-IV) |
| | Wide Range Assessment of Memory and Learning-2 (WRAML-2) |
| | Woodcock-Johnson III Tests of Achievement (WJ-III-Ach) |
| | Woodcock-Johnson III Tests of Cognitive Abilities (WJ-III-Cog) |

TECHNICAL SKILLS Neurophysiological Techniques: Electroencephalography (EEG), Event-related potentials (ERPs)

Statistical Analysis: Multilevel Modeling/Hierarchical Linear Modeling (MLM/HLM), Structural Equation Modeling (SEM), Moderated Multiple Regression, Principal Components Analysis (PCA), Latent Growth Curve Modeling (LGCM), Longitudinal Mediation Analysis, Cross-Lagged Autoregressive Panel Modeling, Latent Change/Difference Score Modeling (LCS/LDS), Autoregressive Latent Trajectory Modeling (ALT), Multiple Imputation, Item Response Theory (IRT)

Statistical Software: R, Mplus, SPSS, SAS, OpenMx, AMOS, MATLAB, ERP PCA Toolkit, Amelia

Computer Applications: Net Station, T_EX (L^AT_EX, B_IB_TE_X, Beamer), GitHub, most common productivity packages for Windows

Operating Systems: Microsoft Windows, Apple OS, Linux

RESEARCH
SUPERVISION

People

- Undergraduate research assistants: 25
- Graduate assistants: 3
- Graduate students: 2

Theses, Grants, and Publications

- McNair Project and Thesis: 2
- Honors Project and Thesis: 3
- Pre-doctoral NSF grant: 1
- Article submission to peer-reviewed journal: 2
- Article published in peer-reviewed journal: 1

Activities

- Trained others in behavioral coding of parent–child interaction tasks
- Trained others in data analysis, including Pearson correlation, multiple regression, moderated multiple regression, principal components analysis, multilevel modeling, structural equation modeling, and longitudinal data analysis
- Trained others in R software and coding for data management, merging, cleaning, calculating composites, and statistical analysis
- Developed and trained others in data management system for multi-site NIH study with double data entry
- Trained others in open and collaborative science with version control using GitHub
- Trained others in EEG, including use of technical equipment, net placement on young children, data processing, interpretation, and data analysis
- Worked closely with junior graduate student on pre-doctoral NSF grant submission that built on my dissertation study; grant was awarded
- Published in a peer-reviewed journal with junior graduate student using EEG data from my dissertation study
- Submitted a manuscript to a peer-reviewed journal with a former undergraduate research assistant whose Honors project I supervised
